“Switch-N-Go™ Lowers my Liability!”

I own two trucks with Switch-N-Go™ systems. The trucks get used every day and we can choose which bodies we need at various times throughout the job. This keeps us from wasting money. Our chipper body is used to put chips in. Our drop box is used as a dumpster, to haul material, and to load wood. In the future we want to add more bodies to our fleet. Some examples are a skid body, spray rake, and a log body. The log body will enable us to haul the logs back to our yard so we can get paid for the lumber instead of just disposing it. Switch-N-Go™ makes my company more versatile.

Another advantage of owning a Switch-N-Go™ system is that it allows us to lower our liability. Being able to put the bodies on the ground allows my men to work at ground level. They can roll their wheel barrels right into the body. This Lowers Our Risk Of Injury. It also makes my insurance company happy.

“Buy a Switch-N-Go™!”

Shawn Moloney
SPM Enterprises

Update 2012: SPM Enterprises has expanded with the help of his Switch-N-Go™ systems. He now owns three Switch-N-Go™ trucks.
